Mr. John Chappell  
City Inspector  
830 Boonville Ave.  
Springfield, Mo. 65802

Dear Sir:

The tank facility in Springfield on South Cloud was constructed as a storage facility only. It has a capacity of approximately 64000 gallons. The facility is protected from spillage by a four foot levee on 3 sides and a slope of well over four feet on one side. The levee should accomodate the total gallonage of the facility.

The tank will handle liquid feed ingredients and other non-toxic or non hazardous liquids.

The tanks are coupled permanently in series. The total estimated expense is \$ 10,000.00. Enclosed is a check for twenty dollars (\$ 20.00).

If I could answer any more questions, please call.

Yours truly,

  
Michael L. Maczuk
